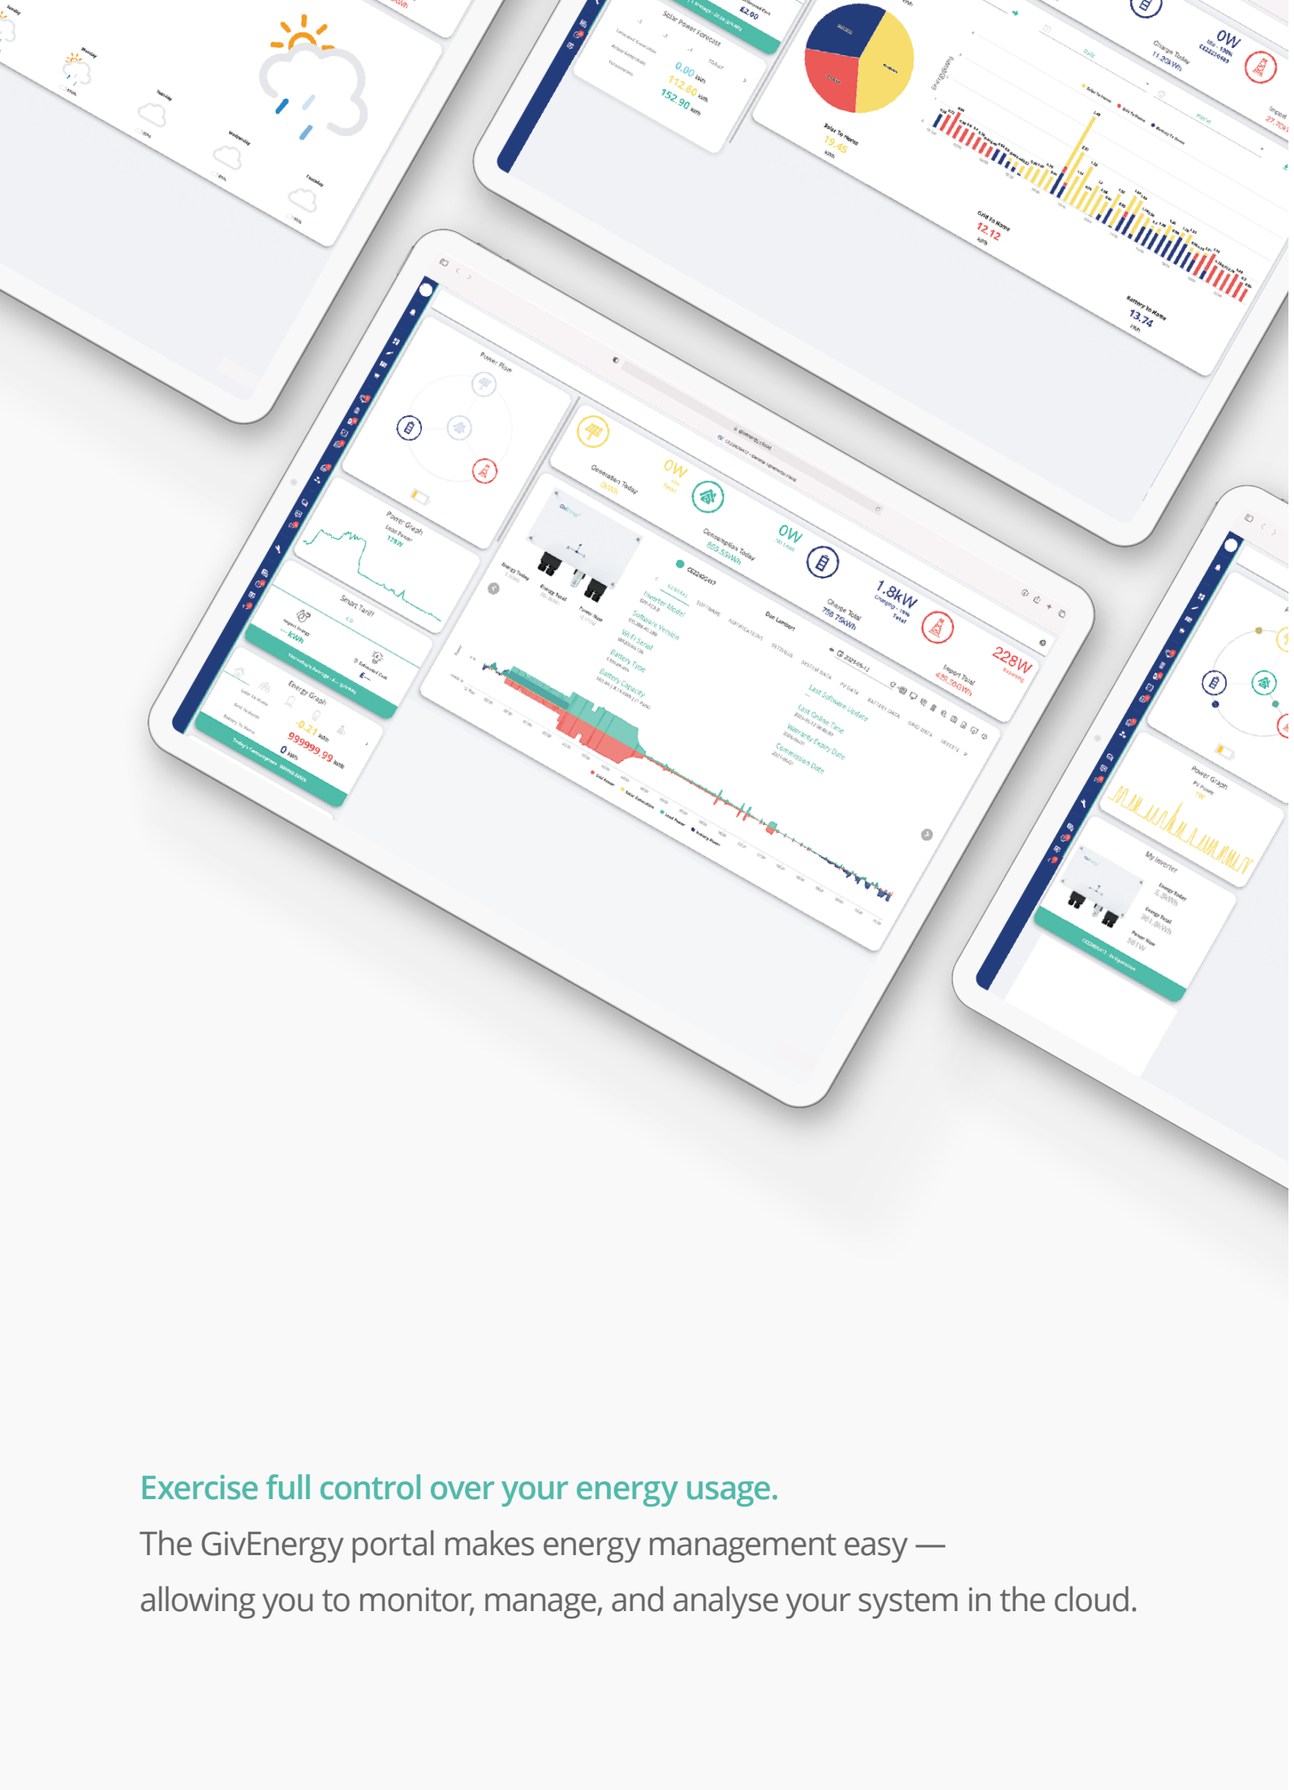
GivEnergy®

JULY 2023

GivEnergy portal

Always connected, always in control



Exercise full control over your energy usage.

The GivEnergy portal makes energy management easy —
allowing you to monitor, manage, and analyse your system in the cloud.

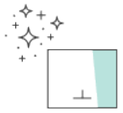
Advanced home energy monitoring

Buying a GivEnergy solution? Alongside our best-in-class technology, we also offer best-in-class software.

Our powerful monitoring portal allows you to remotely manage your system via a clean, easy-to- use interface. You get complete control, up-to-the-minute visibility, and granular data insights.

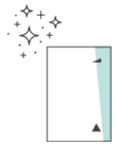
And, in turn, you get all the tools you need to continually drive savings.

The GivEnergy portal works with your...



Inverter

Get power stats and explore how much energy is going in and out of the home.



Home battery

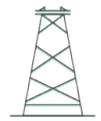
Monitor state of charge, battery health, and throughput.

Generation source

Keep tabs on the energy generated from solar, wind, or hydro.

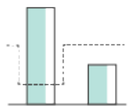
EV charger

Manage your charge point and display the latest information about your EV.



Grid usage

Track how much energy you're importing and exporting via the grid.



Smart tariff

Built to work perfectly with smart tariffs like Octopus Agile and Economy 7 meters.

Electrical appliances

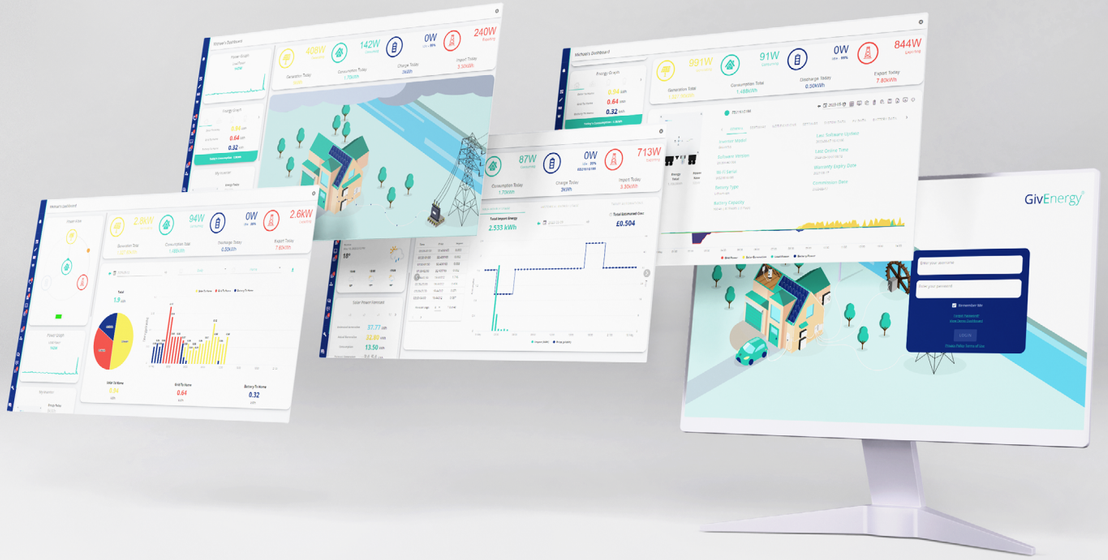
Connect appliances to GivEnergy smart plugs for usage data and remote control.

Home

Visibility on the overall energy consumption of your home.

Alexa

Ask Alexa for power updates and tell her to turn app-connected devices on/off.



"The key thing we have seen as a family is, thanks to the **visibility of the data,** we are now more aware of our power use and generation. We've been able to **change our behaviour** as a result of that insight."

- M. Dews, GivEnergy customer

Unparalleled data access

- Customisable dashboard unique to you and your setup
- Graphs displaying your power usage and energy usage
- Quick information and detailed power values alike

Unparalleled control

- Control your system from anywhere, anytime
- Set schedules and timers to configure your energy usage around your lifestyle
- Monitor all your electronic devices in one place

Unparalleled technology

- Easy to use, remotely updated, and free forever
- API access to set custom automations
- Supported by a UK team of developers continually rolling out improvements
